DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/1/2005 has been entered.

Priority

2. Submission of the certified translation of the Japanese Priority Document (JP 11-092948) filed March 31, 1999 is acknowledged.

Allowable Subject Matter

3. Claims 5-19,23-26 and 28-32 are allowed.

4. The following is an examiner's statement of reasons for allowance: Claims 5, 9 and 17 recite, inter alia, a silicon oxide separating layer formed on a surface region of a silicon substrate; a plurality of stacks of group III nitride compound semiconductor layers formed on a different region of said surface, and wherein said plurality of stacks of group III nitride compound semiconductor layers are separated by said silicon oxide and not being connected. Furthermore, claim 24 recites, inter alia, implanting ions in silicon substrate surface forming amorphous portions, forming a group III nitride compound semiconductor layer on said amorphous portions having different crystalline structure than a group III nitride compound semiconductor layer

formed on said silicon substrate surface other than said amorphous portions. The prior art does not teach or fairly suggest the above limitations in combination with other claim limitations nor would it be obvious to modify the references of record so as to yield a group III nitride compound semiconductor device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (571) 272-1921.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on (571) 272-1915.
